My Car Doc has been in business since 2004. Here at My Car Doc, we treat our customers like people, not like an ATM machine. We don't spend a lot of money on fancy advertising, TV or radio commercials, or huge billboards. Our business speaks for itself. Our customers tell their friends and coworkers about us.

Our reputation as a locally-owned small business that treats people right is exactly the goal we had in mind when My Car Doc first formed. And this type of honest, friendly, convenient service is the reason we have such great standing in the community. My Car Doc and you....we're a winning combination!
